

Kaya Thomas

kaya.m.thomas.17@dartmouth.edu | 917-200-2984 | kmt901.github.io

Education

Dartmouth College, Hanover, New Hampshire

Expected Graduation June 2017 with B.A. in Computer Science

Overall GPA: 3.5

Skills

Languages: Python, Objective C, Java

Web Technologies: HTML, CSS, Javascript

Experience

Mobile Development Intern, *Time Inc*

June 2014- August 2014

- Developed an iOS application with Entertainment Weekly brand.
- Designed 3 prototypes and conducted usability testing.
- Won a company wide intern challenge out of 37 submissions and 6 finalists.

Student Programmer, *Tiltfactor*

March 2014- Present

- Fixed a significant bug in the php configuration file that was preventing users from signing up for the Metadata Games system.
- Updated documentation for the game build and content installation so Mac developers can use the system and early developers can follow along.
- Redesigned 3 webpages in the system so the user can input information easier.

Volunteer Technical Mentor, *Blacks Girls Code*

March 2014- Present

- Mentored a team of 5 high school girls at the "Love is Respect" hackathon in partnership with Verizon's Break the Cycle initiative.
- Taught web-based application building software, Appery.io.
- Assisted a classroom of girls at the "Build A Webpage in A Day" workshop.

Projects

We Read Too, *Book resource iPhone App*

- Implemented Parse iOS SDK to showcase over 300 books.
- Developed features so the user can browse books, search by author or title, view a detail page for each book, suggest books to add and buy the book directly on Amazon's website in-app.
